early care &
Learning COUNCIL

New York's child care resource network

Early Care and Learning Council
250 Washington Avenue Ext.
Albany, NY 12203
518-690-4217
www.earlycareandlearning.org

Mission Statement

The mission of the Early Care & Learning Council – a statewide, not-for-profit, membership organization – is to promote excellence in early care and education with equal access for all families. We do this primarily through the support of and in partnership with a strong network of community-based organizations that provide Child Care Resource and Referral services.

*Adopted by the
Board of Directors
2003*

A Voice For Children

The Early Care & Learning Council has been working to make quality, affordable child care available to New York's families since 1975. Rooted in a statewide network of child care resource and referral agencies, the membership of Early Care & Learning Council includes wide representation from child care providers, parents, businesses, community organizations, and other individuals.

Guiding Principles

The Early Care & Learning Council seeks to develop a system of quality early childhood care and education that:

- is available to every child regardless of income level, cultural background or family composition;
- adequately prepares and compensates teachers and providers;
- involves all segments of the community in addressing child care needs;
- shares and exchanges information among members, supports
- their efforts and promotes common goals and interests.

What Is A Child Care Resource & Referral Program?

These programs serve as community coordinating and planning agencies for local child care services and offer a variety of supports to child care providers, parents, businesses, and local governments.

The Child Care Resource and Referral (CCR&R) program increases the supply of quality child care by providing a broad range of support services to providers, and helps families make informed decisions about available child care services.

The New York State CCR&R program:

- assists families by providing a highly visible, centralized source of information for child care consumers
- identifies sources of financial aid to help families pay for their child care choices
- improves the quality of available services by providing a broad range of support services to providers, including training, technical assistance and publicity
- expands the supply of child care by recruiting and training new providers
- educates parents about what constitutes quality child care and how to evaluate their child care arrangements on an ongoing basis
- encourages businesses to support child care
